About the Instructor

Masha Power has received the hightest certification, E-RYT500, with the Yoga Alliance. She is also a Certified Clinical Yoga Therapist and Integrative Health Coach

Gentle Yoga Classes

Saturdays, 7:30 AM - 8:30 AM March 2 - May 4, 2024

Gentle yoga is designed for those new to yoga or those who like a slow-paced practice that incorporates traditional postures and breath techniques. This 60minute practice is focused on alignment, strength, balance, and flexibility, but in a very gentle way with the use of props and modifications. We will move gradually in and out of each posture until finding a holding position. This gentle movement protects and nurtures the joints, muscles, and connective tissue.

SmartGov:

Are you looking to access SmartGov? Please visit the City's website, click on "How Do I..?" and "Access SmartGov". This will take you right to the portal.

Fall/Winter cleanup is slightly behind schedule, and with the recent winter storm additional leaves and tree limbs have been scattered throughout the city. Measures are in the works with BrightView to continue to get to areas hard hit by the storm and get the debris/limbs removed. Public Services staff is working hard to get it under control, but the freezing rain has added to the difficulty, and they are working through it. Thank you for your patience!

Did you know?... that development project materials are posted on the city's website to assist in staying informed and engaged of a new project or an ongoing project?

When an applicant submits project materials, these are placed on the City's website and can be located on the Planning Services page under Community Development: https://www.dupontwa.gov/139/Active-Development-Projects

Engineering update for on going projects:

- The City awarded the construction contract for the PFAS Treatment Facilities to McClure and Sons, Inc. for a total
 amount of \$7,301,440. Mobilization and utilities work at Hoffman Hills project site is in progress, and the project
 completion date is expected in late 2024.
- Center Drive Pavement Overlay Phase 6 project was completed in December 2023.
- HSIP "Highway Safety Improvement Program"- the City secured a Federal Grant for a total amount of \$539,000 for traffic and pedestrian safety improvements. WSDOT is currently reviewing the RFP.

AUGUST 2023

I-5 - Mounts Rd. to Steilacoom-DuPont Rd. Corridor Improvements

Beginning in late summer 2023, contractor crews working for the Washington State Department of Transportation will begin construction on Interstate 5 in DuPont near Joint Base Lewis-McChord. This is the third in a series of projects that widens I-5 to add HOV lanes between DuPont and Lakewood.

Improvements coming to DuPont and JBLM

In addition to extending the I-5 HOV lanes, construction crews will make improvements that enhance mobility and safety in DuPont and near the JBLM DuPont Gate at exit 119, including:

- A new bridge spanning I-5 and the railroad.
 The new bridge will feature a partial Diverging Diamond Interchange and a shared-use path for pedestrians and bicyclists between JBLM and DuPont.
- Direct access between JBLM and both directions of I-5
- A new roundabout connecting Steilacoom-DuPont Road and the new overpass.

The project will also add a new signal at the intersection of the southbound I-5 off-ramp at Mounts Road (exit 116) and improve the I-5 vertical clearance over Pendleton Avenue.

What you can expect

Construction will begin in summer 2023 and is expected to be complete in 2026. The project consists of multiple stages that involve overnight and weekend ramp closures, lane shifts onto temporary pavement, potential speed limit reductions, and bicycle and pedestrian detours. Crews will contain dust and debris to the construction site and will intimize noise as much

Community News

Around the Town - February 2024

Over the last year, I have had an opportunity to discuss future growth in SHSD communities with developers, as well as city and town officials from Steilacoom and DuPont. Emerging plans could potentially add another 2,000 students to our district in the next six years. We have anticipated some additional growth for years, but not at this level or pace. This amount of growth will create a significant need for new classrooms, especially at the elementary level.

The district included a new elementary school in its bond plans last year, but the overall bond package fell just short of the 60% approval required. The SHSD Board of Directors and I are committed to re-engaging our community to develop a new bond package that aligns with our community's vision and students' needs. We began seeking volunteers to guide that process and received a tremendous response. Volunteers have stepped forward to represent every area within the district including staff, families with current students, families with future students, and retirees.

Next month, the exciting process of creating a plan for SHSD's future will begin. From the volunteer pool, the board will be selecting about 20 individuals to serve on a citizen's advisory committee to help prioritize the district's needs and provide feedback on a future bond package. All other volunteers will be invited to participate in focus groups and provide feedback on draft plans as they are developed. If you are interested in being part of a future focus group or would like to receive information about the plans as they develop, please let us know!

We want as much feedback and involvement from our community as possible, so we can ensure a successful plan to support our students. The citizen's advisory committee will ultimately create a bond package that includes new classrooms to address future growth, as well as other important projects to meet the needs of our students, schools and community. We expect this plan to be finalized in 2025. If approved by the SHSD Board of Directors, the plan would advance to voters in 2026 or 2027.

Thank you all for your continued support of our amazing students and staff.

Safety Message - Non-Fire Cooking Burns. Most burns associated with cooking in 2013-2017 were caused by contact with a hot object or liquid rather than by fire or flame.

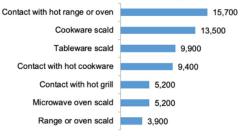

TIPS

- Ranges or ovens were the most common cooking equipment involved in non-fire cooking burns. Only 14% of thermal burns involving ranges or ovens were due to fire or flame.
- Although tableware is not itself used for cooking, it often holds very hot food, soups or drinks, and may itself be very hot.
- Keep hot foods and liquids away from table and counter edges.
- Have a "kid-free zone" of at least 3 feet (1 meter) around the stove and areas where hot food or drink is prepared or carried.
- Never hold a child while you are cooking, drinking a hot liquid, or carrying hot foods or liquids.

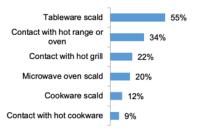

FACTS

- Children under five face a higher risk of non-fire cooking burns. These young children
 account for 6% of the population but much larger percentages of non-fire burn injuries
 from cooking equipment, tableware such as bowls and cups, and cookware such as
 pots and pans.
- In contrast to the non-fire burn estimate, reported home structure fires caused by cooking killed 530 people and injured 5,270 people. This was a fraction of total burn injuries caused by cooking, hot food, or hot drinks. Children under five accounted for only 6% of home cooking fire deaths and 3% of home cooking fire injuries. Cooking was still the leading cause of home fire injuries in the under 5 age group.
